

Low Poly Kitchen Starter Pack

13 stylized kitchen assets | FBX models and Unity prefabs

Overview

A collection of low-poly kitchen furniture, appliances, utensils and food props for stylized game environments. Chunky shapes and textureless flat-color materials give the models a consistent appearance for cozy kitchens, restaurants, simulation games and casual projects.

Included	Details
Models and prefabs	13 unique models and 13 prefabs
Geometry	16,734 triangles in total; no LODs
Moving parts	Openable doors on the refrigerator, gas stove and kitchen counter

Getting started in Unity

1. Import the package into your Unity project.
2. Locate the included prefabs in the Project window and drag the required assets into your scene.
3. Position and scale the assets to suit your environment. The recommended scale is 1 Unity unit = 1 meter.

Openable doors

Refrigerator_Main, **GasStove_Main** and **KitchenCounter_Main** have doors that can be opened and closed. Use your own animation or interaction setup to control their movement in your project.

Prebuilt animation clips are not included. The models are not rigged. Openable doors are a model feature and do not indicate that ready-made gameplay interactions are included.

Materials and render pipelines

All assets use textureless flat-color materials. Change the material colors to customize the palette. No external image textures are required, and UV mapping is not required for the included materials.

Built-in Render Pipeline: compatible

Universal Render Pipeline (URP): compatible

High Definition Render Pipeline (HDRP): materials require conversion

Technical Reference

Low Poly Kitchen Starter Pack

Property	Value
Unique models / prefabs	13 / 13
Model format	FBX
Triangle count	Total: 16,734 Average: approximately 1,287
Triangle range	296-4,338 per model
LODs / rigging / animation clips	Not included
Textures / texture dimensions	None / not applicable

Included models and triangle counts

Counts below are triangle counts for the included models. No additional LOD meshes are included.

Model	Triangles	Openable doors
BreadLoaf	476	-
CuttingBoard	398	-
FriedEgg	372	-
FryingPan	712	-
GasStove_Main	3,970	Yes
KitchenCounter_Main	4,338	Yes
KitchenKnife	328	-
KitchenTable	450	-
MilkCarton	1,862	-
Plate	296	-
Refrigerator_Main	2,876	Yes
Spatula	330	-
Tomato	326	-

Texture information

No albedo, normal, metallic, roughness, ambient occlusion, emission or other image texture maps are included.

AI usage disclosure

AI-generated images and models were used solely as references. All final models were manually remeshed and refined by hand.
